2. Reading comprehension

Reading 1: All things for all people – everywhere

Read the article about Harrods, a traditional department store in London, then turn to tasks 1 and 2.

Many visitors to London know that Harrods is the largest department store in the world, with over 92,000 square metres of selling space. But do they also know some other interesting facts about the company that, according to its motto, prides itself on selling 'all things for all people – everywhere'?

E

Today's much-loved trading giant started out very differently when the company's founder moved his grocery shop to its current location in 1849. Initially, it consisted only of a single room with three employees: two shop assistants and a delivery boy. It took forty years to grow into a company employing one hundred people by 1880.

.....

An unexpected disaster made Harrods really famous in December 1883 when the store burned down in a fire. Amazingly, Harrods still delivered all its Christmas orders on time, and made a fantastic profit.

.....

It was Harrods at the end of the 19th century that installed the world's first escalator. Brave travellers on the moving staircase were rewarded with a glass of brandy when they reached the top.

.....

Harrods' success in Britain did not extend to other countries. In 1912, they opened their only department store in a foreign country in Buenos Aires, Argentina, which became independent about thirty years later, but still continued to use the name. Finally, in 1997, a British court ordered the Argentinian shop to stop trading under the Harrods brand.

Famous customers of Harrods include author A. A. Milne, who bought the original Winnie-the-Pooh in the store, and film director Alfred Hitchcock, who ordered his favourite fish there, which had to be flown to him in Hollywood.
